EXPERIENCE

- 01/02/2023

05/12/2024
- Junior Web Developer

Intellixsoft

· Built and maintained responsive websites using HTML, CSS, Bootstrap, and JavaScript.

· Translated PSD and Figma designs into pixel-perfect, functional web pages.

· Collaborated with senior developers to add features and fix bugs.

· Participated in code reviews and team meetings to improve project quality.

· Applied responsive design principles for cross-device compatibility.

· Continuously learned and adapted to modern frontend technologies.
- Team Leader

Intellixsoft

· As a front-end developer and team leader at Intellixsoft, I guide the web team in crafting responsive, user-focused applications. My expertise in HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, and React.js, combined with strong leadership skills, enables me to drive high-quality, innovative digital solutions.

SUMMARY

As a seasoned Frontend Developer with 2 years of hands-on experience, I currently lead dynamic teams at Intellixsoft, Bahawalpur, delivering innovative and high-impact projects. My expertise spans HTML, CSS, JavaScript, and modern frameworks like Tailwind CSS, Bootstrap, and React.js, enabling me to build visually engaging and functional applications. Notable projects such as Mini Store and Sabres Media showcase my ability to turn ideas into seamless digital solutions. Leading teams has strengthened my adaptability, collaboration, and problem-solving skills while continuously refining my technical expertise.
